

What does your company throw away?

Every day local firms discard waste products that are simply far too good and useful to dump!

There is an alternative!

We already have over 50 local suppliers, but we're on the lookout for even more interesting and unusual items from:

- Production off-cuts and surplus items
- Rejected or redundant stock
- Unwanted or out of date products

including paper and card, fabrics, foam, boxes and containers, foil, wood, tubes, etc...

The list is endless, as long as the items are clean, dry and non-toxic. One off or regular supply - we don't mind - so please get in touch!

Don't dump it Donate it
